

Summary

A committed problem solver who is passionate about lifelong learning and development. Devoted to working together in a vibrant team atmosphere to foster success and accomplish objectives. eager to increase knowledge and help the business accomplish its goals.

Education

•JB institute of engineering and technology(JBIET), Hyderabad	2024
<i>Btech - CSE</i>	CGPA: 7.78
•T.R.R College of Technology(Polytechnic), Meerpet	2021
<i>Diploma in Mechanical Engineering</i>	CGPA: 8.54
•Gateway International High School	2018
<i>Central Broad of Secondary Education(CBSE), Telangana</i>	CGPA: 8.2

Projects

• Food Recognition using machine learning	
<i>This application involves detecting food of various items using machine learning.</i>	
– Tools & technologies used: TensorFlow / PyTorch,Keras,openCV,CNN,Django. – Developed a food recognition system using CNNs in TensorFlow/PyTorch to classify food images with 86% accuracy. Deployed model using Flask for real-time classification and integrated with a mobile app for nutrition tracking.	
•Deepfake Detection using Hybrid CNN and RNN	<i>Github</i>
<i>A CNN and RNN model for detecting deepfake detection.</i>	
– Tools & technologies used: Tensorflow , OpenCV ,CNN , RNN ,Feature Extraction. – Frameworks: PyTorch 1.4 , Django 3.0. – Datasets: DeepFake Detection Challenge Dataset , FaceForensics++ ,Celeb-DF. – This project focuses on developing a hybrid CNN and RNN model for Deepfake Detection. The objective is to accurately classify and detect the deepfakes.	

Technical Skills

Languages: Java, Python, JavaScript, TypeScript
Frontend: HTML, CSS, React.js, Next.js, TailwindCSS, Framer Motion
Backend: Node.js, Express.js
Databases: PostgreSQL, Supabase, Firebase
Tools & Others: Git, GitHub, REST APIs, Redux Toolkit, Zustand
CS Fundamentals: DSA (basic knowledge), OOP, DBMS.

Coding profiles

CodeChef , LeetCode Certifications

- Fundamentals of Python
- Core Java Concepts

Achievements

• I have accomplished the Python for Data Science course and obtained a merit certification.	2022
• Published research paper on Deepfake detection in Technische Scicherheit(Technical Security)	
• completed GRE and Duolingo Exams with competitive scores,demonstrating strong analytical and language skills	2024
•
